

## EXPERIENCE

The GoSwift service has been implemented internationally (Finland, Estonia, Lithuania and Russia) since 2011 to facilitate the queuing of vehicles at border crossings. GoSwift removes physical queues and replaces them with virtual online queues.

# HOW IT WORKS?

## OUTCOMES

- Less waiting time at the border
- No long physical queues of vehicles
- Vehicles arrive at the border just in time to cross
- Designated waiting areas provided
- Toilets, showers, dining areas, free WIFI provided
- Improved security & traffic safety
- Drivers can manage their work & rest time
- Environmentally friendly
- Improves your country's image!

## GOSWIFT OFFERS

- Queue Management Solutions for borders
- A reservations system for parking areas
- Integration of existing and legacy systems with new GoSwift solution
- 24/7 call centre, support and helpdesk

## AWARDS

- World Summit Award 2013, Winner
- Baltic Assembly, Innovation Prize 2013
- Estonian best e-Service 2013, e-Government

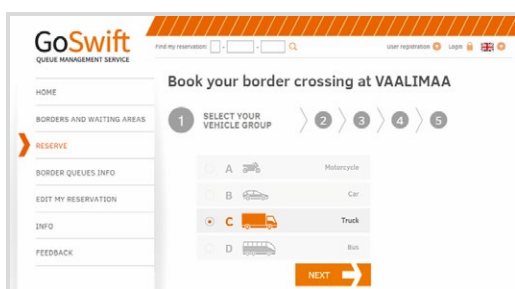

## THE PROBLEM

- **Long queues**, up to 5-6 days
- **Profit loss** for owners & carriers of goods
- Poor work & rest conditions for drivers
- **Traffic safety & security** problems
- Garbage & pollution
- Illegal sale of places in the queue

## THE SOLUTION

- Change the physical queue into a virtual queue
- Booking of border crossing times
- **No need to wait at the border**
- **Plan time** when you want to cross the border
- **Book a place** in the queue, arrive just in time and **go**
- Provide better services & conditions for drivers

The GoSwift solution queues vehicles virtually and thereby reduces long queues at borders.

„GoSwift is a highly intelligent application which demonstrates that a small change can have a big influence on many people; create a safer world, eliminate corruption and improve the transport industry.“  
**Prof. Dr. Peter A. Bruck,**  
WSA 2013 Chairman
